- hearing aids
- extra batteries

Baby

- diapers
- formula
- food
- clothing
- wipes

Pets

- identification/tags
- carrier/cage
- food and water
- muzzle
- leash

Evacuation Orders

Public Safety Officials use Immediate Evacuation Order as a protective action in certain emergencies to help save the lives of residents, visitors, and first responders. Upon receiving an Immediate Evacuation Order, you should leave as quickly as possible. Evacuation routes become severely congested during evacuations.

Types of evacuation orders

Immediate Evacuation Order

Immediate Evacuation Order means there is an imminent threat to life and property. People and their pets in the Immediate Evacuation Order area should evacuate without delay. Law enforcement personnel will clearly state that failure to evacuate may result in physical injury or death, a future opportunity to evacuate may not exist, and resources to rescue you may not be available.

Potential Evacuation Order

During events with notice or other slowly unfolding incidents where advance warning is available, there may be situations where Potential Evacuation Orders are warranted. Potential Evacuation Order means that there is a potential threat to life and property and preparations should be made should an Immediate Evacuation Order be issued. Individuals with access or functional needs should consider leaving. If at any time you feel threatened, action should be taken to leave for a safe area.

Emergency notifications

We use two primary notification systems for emergency information. AlertOC is our **emergency** alert system. Nixle is our **community** alert system, a city sponsored alert system which offers community information, traffic, and city-wide emergency information.
